Principal Address:

- Plan due by the end of February, so some decisions had to be made at the previous meeting.
- Previous meeting it was decided to shift the Community Council funding focus from a Restorative Room to Language Arts/Reading. This is our lowest output from the RISE testing results
- Restorative Room will still happen, but will not be the main focus and will be funded elsewhere
- Plan for funding is broken down as follows:
 - About \$64,000 total to plan for
 - \$20,000 designated for reading para use
 - \$15,000 designated for guest professional development
 - \$20,000 designated for college/uni "SEE" student teachers or practicum
 - \$4,000 designated for classroom supplies
 - \$300 carryover
- Plan will be submitted to see if changes and clarifications need to be made

Other business:

- Para for the Restorative Room is already hired and comes after spring break. Jennifer Shepherd is coming to help train. This will be a test run to see if a para can do it, or if we need a full-time teacher.
